

The following are the resolutions recently adopted by the Breckinridge and Land Convention, which assembled in Marion County.

The committee, (by Mr. Walpole) after a short absence reported the following resolutions:

WHEREAS, the late Democratic Convention, at Cleveland, and Baltimore, failed in united and regular Convention to present to the Democracy for their support names of candidates for President and Vice President of the United States, thereby disapproving the hopes of those who were more anxious for the continued popularity of good principles than for the gratification of the personal aspirations of candidates, and causing a separation of the Union to support rights and interests belonging to one section of the Union;—But let us re-apply the sentiments of leading supporters of Breckinridge and Lane. Let the record speak.

I say here to-day that I have heard the greatest men of this nation—North and South, East and West—for four consecutive years in the Hall of the House of Representatives, and in the Senate of the United States; I have heard the Stephens and Toombs of the South; the Seward, Chase, and Corwin of the North; I have heard the most renowned orators on the floor of the Senate and House daily for years; and I say here to-day, that for clearness of statement, for penetration of thought for power of irresistible logic, for broad comprehensive, statesmanlike views for exalted purity of private and public character, you own Abraham Lincoln is the clearest, neatest, purest and best of them all. In the history of his life, in all the elements which inspire with enthusiasm the hearts of the masses of mankind; and cause the millions to action. I stand up here to-day, in this the Capitol of the State, and in the presence of my countrymen, to say that the name of Abraham Lincoln is this day and hour the mightiest name upon the Continent of North America. [Prolonged cheering.]—Hon. Mr. R. Yates, of Illinois.

NOVEL APPLICATION OF GALVANISM.—Judge Fuller, of Coldwater Michigan, recently galvanized a couple of Norway spruce trees, apparently dead into life and vigor, by means of a battery of zinc and iron, placed near the roots. The branches are swelling out and new leaves are forming where they were formerly falling off.

IRON AS MEDICAL REMEDY.—The coloring matter of the blood comes from the iron which cannot be diminished by certain diseases, but put rendering the blood unfit for the perfect nutrition of the different organs. In such cases the fact is apparent by general paleness, weak complexion, impaired breathing, cold extremities, &c.

A DIVIDEND of 5 per cent, has been declared on the Capital Stock of this Branch on Shares held by A. F. Smith, under the name of Brown, Smith & Co., this day dissolved.

INPECTIVE.
The Persian Fever Charn.

For the prevention and cure of Fever and Ague, and Bilious Fevers. This was done, and was brought to the knowledge of the present author by a friend who has been a great traveller in Persia and the Holy Land.

While going down the river Euphrates, he experienced a severe attack of Fever and Ague, and was about to die, when one of the boating took him his arm and said, "Wear this and no fever will touch you." Although incredulous as to its virtues, he complied, and experienced immediate relief, and has since used it with great effect, protection from all various complaints.

No further investigation is made, but it is found that the boating had a great influence over him, and caused a slight attachment to be formed by me against the goods and chattels, credits and effects of the said defendant, now therefore said defendant is hereby notified to appear before the court and answer to the charges, and apply for a writ of habeas corpus, and if he does not, then proceed to the Materia Medica, and an invaluable addition to the Materia Medica, for many of the worst forms of disease.

In the Persian Syrup, by chemical analysis, it is difficult to ascertain the first, second, and third, and the secret of the preparation, and the secret of its preparation, and ascertained that of a protoxyle, a very little like to etherization, when it becomes nearly neutral in the stomach.

ISAAC BALL.

UNDERTAKER,

WILLING to respectfully inform those in want of services, that in Terre Haute, Indiana, there is a man who has been in the business of Undertaking for many years.

Since his return to America, it has been tried with the happiest effect by several ladies and gentlemen of high character, who have given it the most unqualified endorsement, that he is a man of a friend who has been a great traveller in Persia and the Holy Land.

While going down the river Euphrates, he experienced a severe attack of Fever and Ague, and was about to die, when one of the boating took him his arm and said, "Wear this and no fever will touch you."

Although incredulous as to its virtues, he complied, and experienced immediate relief, and has since used it with great effect, protection from all various complaints.

In respect to the word *deceit*, he is, however, in his criticism, and we confess we were foolish in following the authority of such military tyros as Generals Worth, Quinlan, and even Winfield Scott, when we might have availed ourselves of the superior knowledge of the star critic of the Journal.

This vast pity Quinlan and Worth died before they had the advantage of his services. Scott has the opportunity to profit by "star" abilities if he has it good sense to avail himself of it.

47 B. W. Hanna addressed a large and enthusiastic audience at Rockville a few days ago, consisting as we are creditably informed, of twenty eight Democrats and twenty six Republicans.

The instant rolls.

Fouc Gourlay.—The black woman who was charged with burning the stable of Wm. Standiford, was convicted by a jury in the Common Pleas Court, yesterday, and was sentenced to prison for three years in the State prison, and fined \$100.

THE NUMBER.—We have given an estimate of the number of strangers to the city yesterday, by two Democrats accustomed to judge of crowds, at 15,000. We are inclined to think it is very nearly correct.

It was certainly the largest gathering ever seen in this city since 1849.

THE REPUBLICAN CLUB OF MARION, MADISON COUNTY, ILLINOIS, now numbers 181 members, of whom 70 voted for Douglass two years ago.

MR. YANCEY, one of the zealous supporters of Breckinridge, hopes that at a proper moment, by one concerted movement, we can precipitate the entire Nation into a revolution; John A. Jones, another delegate to the Richmond Convention, in a recent letter to the Columbus (Ga.) Corner Stone said, "Let us dissolve this accursed Union, for the thousand and one reasons with the thousand and one of us have." Rhett, of S. C., acknowledged that the "Seceders' Convention was not national," "It says, 'we have,' a sectional convention, called by one section of the Confederacy, to support the sentiments of leading supporters of Breckinridge and Lane. Let the record speak.

"If I had the power, I would dissolve this government in two minutes.—*J. T. Morgan.*

"Let us break up this rotten stinking and oppressive government."—*Gen. Gage.*

"Resistance! Resistance! to death against the government is what we want now."—*David Hubbard.*

"Break up and dissolve this rotten Yankee government."—*J. D. F. Williams.*

"Let the Union rip."—*R. D. Jones.*

"My voice is for war."—*G. D. Jones.*

Resolved, That this meeting most cordially approves the action of that Convention, and pledges a hearty and zealous support of the nomination of President and Vice President of the United States, thereby distinctly dissociating itself from the "Seceders' Convention" and for the maintenance of good principles, than for the gratification of the personal aspirations of candidates, and causing a separation of the Union to support rights and interests belonging to one section of the Union." But let us re-apply the sentiments of leading supporters of Breckinridge and Lane. Let the record speak.
